S U M M A R Y

Playable Ads Producer & Strategist with 1+ year shipping 300+ playable ads across casual and midcore mobile genres as sole in-house specialist with end-to-end ownership. Workflow spans market research, competitor audits, hook ideation, GDD and spec writing, team briefing, A/B testing, and KPI-driven iteration. Backed by 6+ years in creative advertising with deep command of User Acquisition (UA) performance logic, player psychology, and conversion-focused gameplay design — several concepts became studio benchmarks scaled across multiple geographies.

Studio Cation Inc.

05/2025 - Present | Remote, LA

Playable Ads Producer & Strategist | Game Mechanics Designer

- Shipped 300+ playable ads across 6 genres — idle merge, tycoon, puzzle fighter, farming RPG, hypercasual, and arcade shooter — as sole specialist with end-to-end ownership and consistent monthly output
- Designed gameplay mechanics and core loops per playable; authored complete GDD and specs covering mechanics, tutorial flow, UI layout, and end-card strategy — eliminating dev ambiguity and reducing revision rounds
- Led cross-functional teams of developers, artists, and QA from kickoff to ship; structured briefings ensured on-time delivery and creative fidelity across all production stages
- Ran A/B testing and KPI analysis on every shipped playable; iterated on mechanics to improve player engagement and install conversion rates — 2+ concepts adopted as studio benchmarks and scaled across multiple client briefs globally
- Conducted market research and competitor audits before each hook ideation cycle; grounded every playable concept in current UA trends, genre conventions, and player retention data
